Creating certainty
for our customers
by engineering and
delivering the right
maritime solutions.

DAMPIER SHIPYARD

Birdon's Dampier Shipyard is a key part of our global operations, providing comprehensive vessel maintenance, repair, and decommissioning services to the resources and defence industries.

Birdon's Dampier facility is strategically positioned near major oil and gas fields and offshore platforms, reducing vessel transit times and maintenance costs for our clients.

Alongside slipway services, we offer in-water engineering solutions, delivering flexible, tailored support with maximum efficiency.

Our geographic advantage is backed by comprehensive infrastructure, skilled professionals, and a strong focus on safety and sustainability. We are trusted by leading operators including Svtizer, Woodside, and MinRes.

ENVIRONMENTAL

DEFENCE

MARITIME

Specialist Military Vessels

Design, integrated logistics support, prototyping & serial manufacturing for new builds & conversions

Remediation

Hazardous waste removal, groundwater remediation, contaminated site cleanup, occupational health & safety services

Dredging

Capital & maintenance dredging, tailings, dewatering, environmental remediation & marine infrastructure

Decommissioning and Recycling

Salvage, decommissioning, deconstruction, hazardous material management, recycling & secure destruction

Through Life Support

Field services, spares provisioning, obsolescence management, engineering change & configuration management

Marine Construction and Refurbishment

Pontoon construction, dockyard infrastructure refurbishment & asset management

Ship Building and Repair

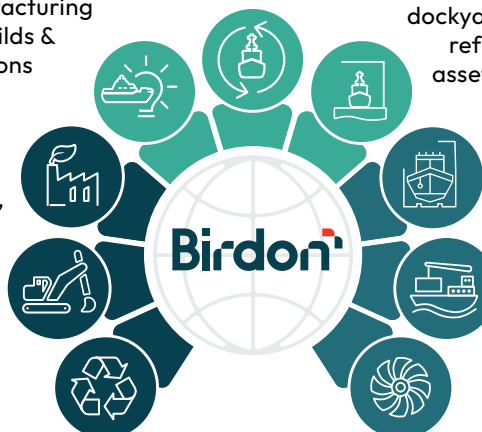

Marine vessel design, engineering, fabrication, repair & support

Maritime Logistics

Marine freight & logistics, quarantine, customs, biosecurity, warehousing, barge & towage services

Propulsion

Customised marine propulsion solutions, control systems, remote controls, autonomy & data logging

OUR CAPABILITIES

VESSEL MAINTENANCE & REPAIR

Birdon's Dampier Shipyard is equipped with a slipway to handle maintenance and repairs for a wide range of maritime assets.

Our team of experts - including fabricators, fitters, electricians, painters, and project managers - ensures that every project is delivered on time and to the highest standards.

FABRICATION & ENGINEERING SERVICES

From steel and aluminium fabrication to complete project management, Birdon Dampier is equipped to handle complex maritime projects.

Our in-house engineering and fabrication facilities are tailored to deliver efficient and cost-effective solutions for any project, regardless of size or complexity.

DECOMMISSIONING & RECYCLING

Birdon Dampier provides reliable and cost-effective decommissioning and recycling services, leveraging our expertise in offshore asset disposal, hazardous material handling in offshore and maritime asset disposal, and environmental sustainability.

We ensure that all assets are managed responsibly, maximizing recovery and minimising environmental impacts.

SUPPORT SERVICES

We offer a full range of support services, including project management, logistics, crew transfer, on-water delivery, and supply chain solutions.

Birdon Dampier is fully integrated with our global supply chain, ensuring that all parts, materials, and resources are available for seamless project execution.

WHY CHOOSE BIRDON DAMPIER?

STRATEGIC LOCATION

Located near Western Australia's key offshore oil and gas fields, our Dampier shipyard reduces vessel transit times and associated costs for maintenance, repairs, and decommissioning.

This proximity ensures minimal downtime for vessels and faster turnaround times for our clients.

SKILLED WORKFORCE

Our team includes class-certified technicians with extensive experience in handling complex maritime projects.

From vessel repairs to full overhaul, as well as decommissioning services, our team is committed to ensuring the highest levels of safety, quality, and efficiency in everything we do.

PROVEN EXPERIENCE WITH MAJOR CLIENTS

Birdon Dampier services industry leaders such as Svitzer, Woodside, MinRes, and Westug.

Our proven track record with these clients demonstrates our reliability and ability to meet the demanding needs of large oil, gas, and defence companies.

FULLY EQUIPPED FACILITIES

Birdon Dampier's shipyard is equipped with everything needed to support a wide range of maritime services, including vessel maintenance, repair, and decommissioning.

Our fully equipped facility features a 2,000-tonne slipway, shore power connections, water and compressed air services, a spacious hardstand area, waste water/oil removal systems, full craneage services, and a dedicated blasting and painting shed. This robust infrastructure enables us to efficiently manage complex maritime projects, ensuring reliable, high-quality service for our clients.

HEALTH, SAFETY, ENVIRONMENT & QUALITY

Birdon strives to provide a safe workplace for everyone through the implementation and monitoring of its Work, Health & Safety Policy and procedures.

Birdon is committed to operating in an environmentally sustainable manner, in compliance with our Environmental Sustainability Policy and our Environmental Protection Licence.

Through our certified Integrated Management Systems, Birdon produces high quality, dependable and compliant services. Birdon is independently certified to the following International Standards:

ISO 9001:2015 Quality Management Systems
ISO 45001:2018 Safety Management Systems
ISO 14001: 2015 Environmental Management Systems

OUR CLIENTS INCLUDE

We DESIGN BUILD MAINTAIN DECOMMISSION

Birdon Dampier Slipway is widely regarded for its resourcefulness and technical proficiency in critical vessel maintenance and repair. Their team brings extensive expertise across all domains of ship repair, including vessel docking, class-approved steel renewals, mechanical systems, electrical works, and marine coating applications.

Known for their ability to mobilise rapidly and manage complex scopes, Birdon consistently upholds classification society standards while maintaining operational continuity. Their structured approach, clear communication, and commitment to quality have earned them a strong reputation within the maritime sector.

Whether supporting emergency docking or executing planned maintenance programs, Birdon Dampier Slipway demonstrates precision, professionalism, and reliability across every engagement.

**- National Technical Manager
Engage Marine**

Birdon were an efficient partner working alongside DOF to deliver the safe, efficient and sustainable disposal of the MEFF DTM and MWAs. Many thanks to the whole Birdon team, we look forward to working with you again.
